

# Age Verification

If you offer alcoholic beverages or tobacco products, you need Age Verification Services. Merchants that offer these products have the constant problem of trying to validate a consumer's age to ensure legal compliance for their business. The Merchants' Choice Age Verification Service does just this. Our service protects your business by electronically scanning identification cards and driver's licenses to ensure customers are legally allowed to purchase the age-restricted products your business sells.

Protect your liquor license by validating customer ages, avoiding costly fines and suspensions and reducing the expense of costly employee training and re-training. Use MCPS Age Verification Services.

**Merchants' Choice Payment Solutions offers Age Verification to all types of industries and we can customize a solution for you.**

- [Restaurant](#)
- [Supermarket](#)
- [Convenience Store/Gas Station](#)

**MCPS also provide your business with additional products and services:**

- Scrip
- Visa/MasterCard

Not only can Merchants' Choice provide you with payment solutions, but we also have unmatched service. Although we process merchant accounts nationally, you will have the feeling of localized, customized service to match your business needs. Unlike other payment processors, our **customer service** department is part of our company, on-site and working 24 hours a day, 7 days a week to ensure your payment processing runs smoothly during business hours. We have a team on hand to provide help at your most critical moments or when you just need to get a question answered. MCPS is here for you.

Merchants' Choice Payment Solutions makes adding payment processing options quick and easy. We also have a **full line of terminals** to support the payment options you need at the pricing you can afford.

**When you need additional payment options, see our other products and services:
