

JCB

The initials **JCB** stand for **Japanese Credit Bureau**. What **JCB** means to you as a merchant is that it is a credit card and the most popular form of payment for Japanese consumers here in the U.S. and around the world. More than 57 million card members worldwide hold **JCB** cards, which are accepted at over 13 million associated merchants in 190 countries/territories.

Merchants' Choice offers JCB card processing to all types of industries and we can customize a solution for you.

- Retail
- Restaurant
- Government
- Supermarket
- Convenience Store/Gas Station
- Mail Order/Telephone Order
- eCommerce
- Wireless

Not only can MCPS provide you with payment solutions, but we also have unmatched service. Although we process merchant accounts nationally, you will have the feeling of localized, customized service to match your business needs. Unlike other payment processors, our **customer service** department is part of our company, on-site and working 24 hours a day, 7 days a week to ensure your payment processing runs smoothly during business hours. We have a team on hand to provide help at your most critical moments or when you just need to get a question answered. Merchants' Choice is here for you.

Merchants' Choice Payment Solutions makes adding payment processing options quick and easy. We also have a **full line of terminals** to support the payment options you need at the pricing you can afford.
